TECHNICAL

Included:

Drugloo Unit with 1 year warranty
10 Litres DL6
Shipping direct to institution
1 year access to Resource Centre

DL6

All Drugloo units use a substance called DL6 which is an anti-microbial disinfectant specifically developed for use in Drugloo units.

Technical Support:

Drugloo units are designed to be extremely robust, built from the highest quality components and manufactured in grade 316 stainless steel. They are also rigorously tested before shipping and you have a full 1-year manufacturer's warranty. This covers everything except misuse and/or abuse.

If there are any issues then we provide support via phone and also video link. We also have units being built in the factory all the time so can give live demonstrations.

Resource Centre:

All clients have access to -

- Information videos
- Training videos
- Technical videos
- Live workshop access

Training:

An online training video is provided via Resource Centre.

Optional - A site visit for training of appointed operatives and maintenance staff is available COVID-19 permitting.

Payment and Delivery:

14 Day from receipt of unit by electronic payment in £/\$ whichever is appropriate.

Delivery Time:

Drugloo units are often in stock so delivery time from receipt of order is usually 1-3 weeks.
